SUMMARY

Frontend Engineer with experience building scalable web applications, internal tools, and user-focused platforms using React, Next.js, JavaScript, and TypeScript. Skilled in designing intuitive user experiences, building reusable components, integrating APIs, and delivering reliable solutions that improve operational efficiency and user productivity. Experienced in collaborating with cross-functional teams, translating business requirements into technical solutions, and contributing across frontend and backend systems. Passionate about solving complex problems, improving workflows through technology, and building products that create measurable impact for users and businesses.

SKILLS

Frontend Technologies

HTML5, CSS3, SASS (SCSS), JavaScript (ES6+), TypeScript, React.js, Next.js, Responsive Design, Cross-Browser Compatibility, Accessibility (WCAG), TailwindCSS, Bootstrap

Development Practice & Tools

Agile/Scrum, Code Reviews, Technical Documentation, Performance Benchmarking, Reusable Component Design, Cross-Team Collaboration, Continuous Improvement, Git, GitHub, GitHub Actions, CI/CD, Webpack, NPM, Docker, Jira, Figma

Backend & Infrastructure

Node.js, Express.js, REST APIs, PostgreSQL, MongoDB, Firebase, AWS, Docker, Linux, Authentication & Authorization, Database Design

Product & Systems Development

Internal Tooling, Workflow Automation, Access Control, Authentication & Authorization, Business Process Optimization, Analytics Integration, Feature Ownership, Cross-Functional Collaboration, Product Thinking

Frontend Development

React Development, TypeScript, SPA Development, Component Architecture, REST API Integration, Redux, Context API, State Management, UI/UX Implementation, Performance Optimization, Debugging, Browser Testing, Functional Testing, Code Refactoring, JWT Authentication

Frontend Architecture

Reusable Component Libraries, Design Systems, State Management, Frontend Scalability, Performance Optimization, Accessibility (WCAG), Cross-Browser Compatibility

UI & Frontend Development

Figma, UI/UX Implementation, Responsive Layout Development, Component Architecture, Reusable Components, SPA Development, State Management, Performance Optimization, REST API Integration

WORK EXPERIENCE

Predmakit – Prediction Market Platform (Client Project), Full-Stack Developer

March 2026 – Present

- Implemented JWT-based authentication and secure user authorization workflows.
- Integrated multiple REST APIs and real-time data services to support prediction market operations and user account management.
- Conducted browser testing, debugging, and performance benchmarking to ensure a smooth user experience across devices.
- Built reusable UI components and maintained a scalable frontend architecture to support future platform growth.

- Collaborated with stakeholders to gather requirements and translate business needs into scalable technical solutions.
- Designed scalable frontend architecture and reusable component structures to support future product expansion.
- Developed complex frontend workflows using TypeScript, React, and centralized state management patterns.
- Performed performance optimization and browser benchmarking to ensure responsive user experiences across devices.
- Built end-to-end features across frontend and backend systems, contributing to product functionality from concept to deployment.
- Worked directly with stakeholders to prioritize features, refine requirements, and continuously improve the product experience.
- Designed and developed internal administration tools for managing users, markets, platform activity, and operational workflows.
- Implemented role-based access controls and secure authentication mechanisms to ensure appropriate access to platform resources.
- Built data-driven dashboards and management interfaces that improved operational visibility and decision-making.
- Collaborated with stakeholders to identify workflow bottlenecks and deliver features that streamlined operational processes.
- Integrated AI-assisted and automation-focused features to improve efficiency and reduce repetitive manual actions.

techsynergy.io, *Frontend developer (VOLUNTEERING)*

September 2024 – present
Tallinn, Estonia

- Developed reusable React components and responsive user interfaces with strong focus on maintainability and scalability.
- Integrated REST APIs and backend services to support business-critical application workflows.
- Performed debugging, testing, and optimization activities to improve application performance and reliability.
- Collaborated with designers to ensure technical feasibility of UI/UX requirements and deliver consistent user experiences.
- Contributed to frontend architecture decisions focused on scalability, maintainability, and long-term product growth.
- Designed reusable UI patterns and component structures to improve development consistency across projects.
- Built scalable Single Page Application (SPA) interfaces using React and TypeScript.
- Applied state management patterns and reusable component architectures to improve maintainability and application performance.

Swapify.ee, *Frontend developer*

November 2024 – present
Tallinn, Estonia

- Integrated RESTful APIs and authentication flows to support secure user interactions and business processes.
- Supported ongoing maintenance, debugging, and enhancement of existing application features and systems.
- Worked closely with product teams to translate business requirements into scalable frontend solutions.
- Implemented centralized state management solutions using Redux to improve application scalability and maintainability.
- Optimized frontend performance through code splitting, lazy loading, and efficient state handling techniques.
- Contributed to application architecture discussions and implementation strategies for scalable frontend development.

- Developed reusable components and frontend patterns to improve maintainability and development efficiency.

EDUCATION

Estonia Entrepreneurship University of Applied Sciences,
Bachelor of Arts: Creativity and Business Innovation

2019 – 2022
Tallinn, Estonia

Lagos City Polytechnic, *Higher National Diploma in Accounting*

2009 – 2014
Lagos, Nigeria
